

HD 200 Green Line 2C

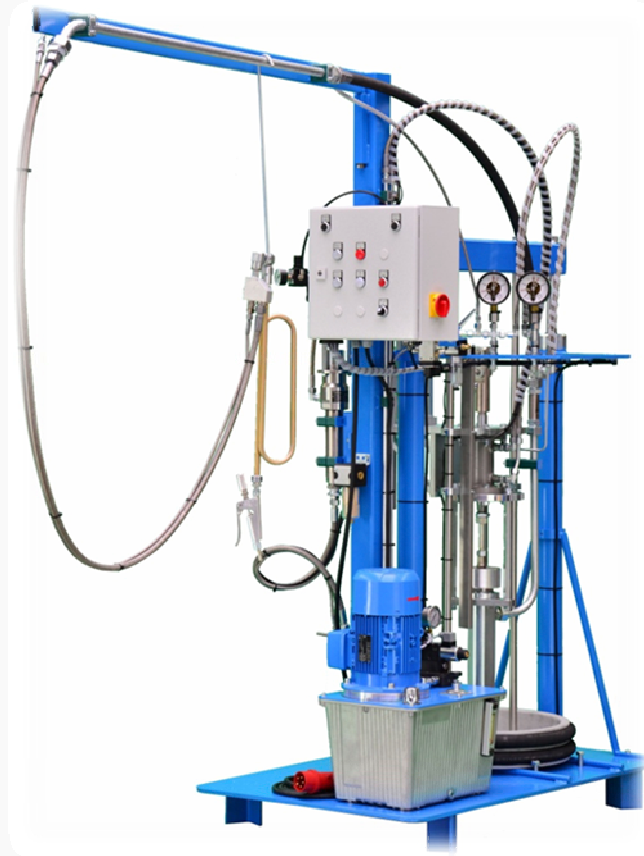

Hydraulic and reliable proven technology
Available for PS, PU or silicone

2C – Hydraulic Hand Gunning Machine

Standard Features:

- Hydraulic aggregate with 2,2 KW
- Maintenance free material pumps
- Automatic "Start- Stop" function
- Variable mixing ratio
- Automatic switch off at excess pressure or lack of material
- 2 hand safety operation
- 2 metre boom arm
- 2,5 metre hand held hoses

HD 200 Green Line 2C

Technical Data:

Output: max. 2,5 kg/ PU

Electric Connection: 400V/ 16A/ CEE

Pneumatic Connection: 4- 8 bar 3/8"

Measurements: 1350x 800x 2400mm

Weight: ca. 650 Kg

Construction: fixed

Output Control: fixed

Here it is the newest hydraulic machine from HDT GmbH, called HD 200 GL. The 2 component hydraulic machine saves energy through the new „Start – Stop“ function.

The HD 200 GL automatically switches off when not in use.

Constructed for use in the modern IG Unit production.

Even in the basic version the advantages to the customer, such as safety processes and economical usage are available.
