

HORIZONTAL GLASS DRILLING MACHINE VS 75

FEROPROFIL

- Double – sided horizontal diamond drilling machine is designed for drilling holes from \varnothing 4mm to \varnothing 75mm average. When using the inverter can drill holes up to \varnothing 100 mm.
- Our drilling machines are equipped with changeable rings for varied drilling sizes in order to maintain maximum pressure (please refer to video for more details).
- During the drilling process a cooling liquid is sprayed into the cavity of drill bit to facilitate the process. This process can be regulated by the operator of the machinery during the drilling process.

Technical information:

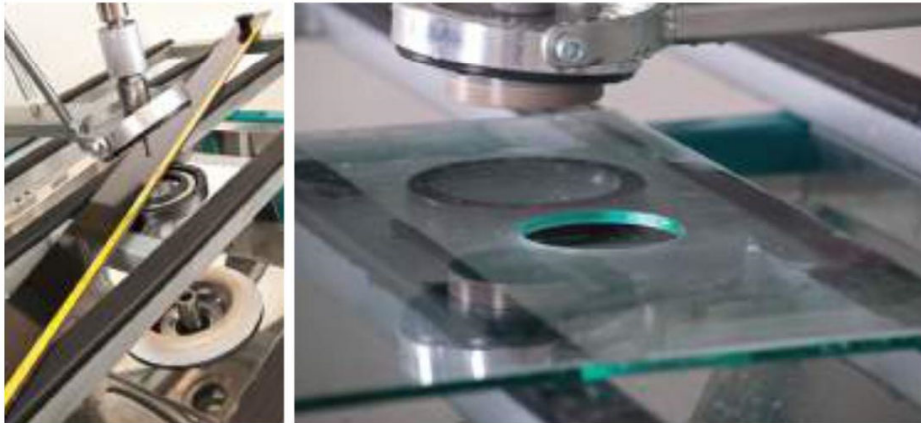

- Motor 3x400 V, 2x 0,37 kW, 1400 rpm.
- Power supply 3x400 V (1x230 V, 3x 230V) 50/60 Hz
- Hole diameter 4 - 100mm
- Drilled glass thickness 3 - 20mm
- Working table 1250 x 720mm
- Finishing Komaxid
- Depth 1000mm
- Width 1240mm
- Height 1750mm

Accessories:

- FRONTAL SLIDING LATH
- REVOLVING WHEELS 4PCS + CONSOLE
- SIDE HEIGHT ADJUSTABLE STANDS
- ADJUSTABLE RULER
