MANUFACTURING

Enerpat manufacture recycling equipment at our factories in Uk, Germany, China to strict European standards. We use **good quality** parts or their equivalent for durability and reliability. Each machine is built to the highest possible standards and endures strict Quality Control before it leaves any of our factories.

SHIPPING

We ship machines around the world. All machines are supplied in Seaworthy Wooden Crates and are safely loaded into shipping containers. We provide paperwork, information and assistance throughout the shipping process.

WARRANTY & SPARE PARTS

All Enerpat equipment is supplied with a full 12-Month FREE parts warranty. Spare parts are stocked throughout the world and are readily available via global courier services such as DHL. After the warranty period, spare parts can be ordered at any time from Enerpat.
